

HARBOR, RIVER AND MARINE NEWS

Shipping Transactions and Notes of Interest Along the Bay Front.

The Tarpon arrived at an early hour yesterday from Mobile, bringing over a large freight consignment to local merchants. The steamer got away at 8:30 last night for the regular trip down the coast.

Monarch to St. Andrews. Towing several lighters the steam tug Monarch left at 10 a. m. yesterday for St. Andrews, Fla. The lighters will be returned with lumber for ships now in the harbor.

Capt. Fritz Arrives. With 80 barrels of naval stores, the Freeport steamer Capt. Fritz arrived yesterday and unloaded cargo at Central wharf. The only other arrival with naval stores was the steamer Holo, from Milton, which arrived with 62 barrels.

Dredging in Slip. Starting at the west side of Commandancia wharf and going southward to follow the berths on the side of that dock, the big dredge doing contract work for the L. & N. Railroad Company has now reached the slip between the two big warehouses and is now working in what was asserted by an official to be the deepest water about the docks of the railroad company. The work is being watched with considerable interest.

New Tonnage Tax Operative. The reduction of vessel tonnage tax from three cents to two cents per ton became operative on October 5th on vessels entering ports of the United States from any foreign port in North America, Central America, the West India Islands, the Bahama Islands, Bermuda, the coast of South America bordering on the Caribbean Sea, or from Newfoundland. The aggregate of the tax is not to exceed 10 cents per ton in any one year. Under the old tariff law the aggregate duty was not to exceed 15 cents per ton in any one year. There is no change in the tax to be levied on vessels coming from other foreign ports the rate of duty being six cents per ton, not to exceed 30 cents per ton per annum. The tax is not imposed on vessels seeking harbor in distress or those not engaged in trade.

Now for the South Pole. The Scotch whaler Terra Nova, the largest and strongest vessel of her kind, 137 feet long and 31.2 feet beam, has been purchased by the British Antarctic expedition for 1910 from Browning Brothers of St. Johns, N. F., which port she will leave in time to arrive in the Thames early in November. Her officers and crew have been selected for the trip to the South Pole, which is to be undertaken next year.

One Less and No Successor. The American ship Charnier left Seattle September 18 with a cargo of lumber for South Africa, from which place she will load coal for the west coast of South America, and then will sail for this port to be dismantled and converted into a barge, making one less vessel to carry the American flag on the high seas and no ship building to take her place. The Charnier was built in Bath, Me., in 1881.

No Fear for "Fox." No fear is felt at this place for the Norwegian bark Fox which sailed early Monday morning for Buenos Ayres. It was at first calculated the vessel would encounter the storm, but it appears the disturbance did not get above Tampa or Jupiter, hence the vessel felt no effects of it. The bark Mario and ship Odersjaa will get away today perhaps.

No Arrivals. No arrivals were reported yesterday, the first blank day in some time. A number of sailing ships are looked for daily, however, and when they reach here will probably have interesting reports to make concerning their hurricane experiences.

Cleared. Odersjaa, Nor ship, 1283, for Buenos Ayres, with 923,000 s ft lumber.

CAPITULATED FOR "THAT HEADACHE." Out last night's "Headache" and nervous this morning's "Headache" Caputina just thing to it you for business. Clears the head-brains the nerves. Try it. At drug stores.

Budget returns are to be heard from at the meeting of the city council which will be held tonight. It will then become generally known just how much money will be allotted the several departments for work during the present fiscal year. The report will come from the finance committee.

The council will also hear from Chairman Moyer, of the franchise and privileges committee, on the new railroad ordinance. Such report was promised at the last meeting, but a failure to get the ordinance in shape in time did not permit of such being made.

The council will have a number of other matters of importance to dispose of this evening, including the election of a successor to Alderman Brown.

A BANQUET spread before you would do you no good if you couldn't eat. What good can food do a child when as soon as it enters its stomach it is eaten by worms. That's the reason your baby is ailing, cross, pasty faced and thin. Give it White's Cream Vermifuge. It will expel the worms and act as a tonic for the child.

CHAS. R. CRANE LOSES HIS JOB

SECRETARY KNOX ASKS FOR
RESIGNATION OF RECENTLY
APPOINTED MINISTER TO
CHINA, WHICH IS TENDERED.

By Associated Press. Washington, Oct. 12.—Charles R. Crane, of Chicago, recently appointed minister to China, today was practically deposed by a demand from Secretary Knox for his resignation. Crane was recalled just before he embarked for Peking. He was in San Francisco and would have sailed in a few days. Returning to Washington he conferred with Knox regarding his alleged responsibility for newspaper publications regarding the attitude of the United States on the recent treaty between Japan and China.

Knox announced this afternoon that Crane's resignation had been invited. Crane replied that while his resignation had been tendered the president, he felt that he was unjustly treated. In a statement Crane reflected on the state department, charging he did not even have instructions usually issued to a minister about to leave for port, and he had been denied access to them after he made repeated appointments with them.

He denies the charge that he "gave out" the newspaper story which was the cause of his deposition, and places the responsibility for his utterances on the situation in the far east on Taft's shoulders, saying he understood Taft's instructions to mean that he discuss realities regarding the condition there, "in order to arouse the people to a keen interest in the Pacific situation."

Many school children suffer from constipation, which is often the cause of seeming stupidity at lessons. Chamberlain's Stomach and Liver Tablets are an ideal medicine to give a child, for they are mild and gentle in their effect, and will cure even chronic constipation.
